## ECO 2.0

---

Eco 2.0 agrupa las colecciones espesoradas de Ecoceramic, caracterizadas por un grosor de 20 mm que les confiere una mayor resistencia. Esta gama se distingue por su idoneidad para aplicaciones exteriores, gracias a su acabado antideslizante y su elevada durabilidad. Estas propiedades, junto con la facilidad de instalación en terrazas y jardines, aportan un valor añadido en términos de funcionalidad y estética, elevando la calidad y el diseño de los espacios.

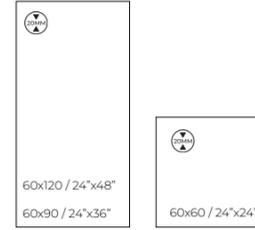

Eco 2.0 brings together the thickened collections of Ecoceramic, characterized by a 20 mm thickness that provides enhanced durability. This range stands out for its suitability for outdoor applications, thanks to its non-slip finish and high resistance. These features, combined with the ease of installation on terraces and gardens, add value in terms of functionality and aesthetics, enhancing the quality and design of spaces.

## Evolución responsable, inspiración sostenible.

En Ecoceramic creemos que cada creación debe nacer con respeto por la tierra. Desde la elección de las materias primas hasta el último detalle de nuestro proceso, cuidamos cada gesto para reducir nuestra huella y honrar los recursos que nos rodean. Nuestra energía proviene del sol, con miles de paneles que nos permiten transformar la luz en energía limpia para producir sin agotar. Gracias a ello, evitamos que toneladas de CO<sub>2</sub> lleguen al aire que todos compartimos. El agua y los residuos vuelven a tener vida dentro de nuestro ciclo productivo, porque nada debería desperdiciarse cuando se habla de futuro. Priorizamos lo cercano: proveedores locales, materias primas de proximidad y prácticas que impulsan la economía de nuestro entorno. Apostamos por la innovación para avanzar hacia una producción más responsable, explorando nuevas energías como el hidrógeno y reforzando nuestro compromiso con la descarbonización. Cada colección que diseñamos busca perdurar, adaptarse y acompañar la arquitectura sostenible del mañana. Porque nuestra visión es clara: dejar una huella cada vez más ligera, un legado de respeto y equilibrio entre la belleza de lo que creamos y la naturaleza que nos inspira.

## Responsible evolution, sustainable inspiration.

At Ecoceramic, we believe that every creation must be born with respect for the earth. From the selection of raw materials to the final detail of our process, we carefully manage every step to reduce our footprint and honor the resources around us. Our energy comes from the sun, with thousands of panels that allow us to transform light into clean power to produce without depletion. Thanks to this, we prevent tons of CO<sub>2</sub> from entering the air we all share. Water and waste are given new life within our production cycle, because nothing should be wasted when it comes to the future. We prioritize proximity: local suppliers, nearby raw materials, and practices that boost the economy of our community. We bet on innovation to advance towards more responsible production, exploring new energies like hydrogen and strengthening our commitment to decarbonization. Every collection we design aims to endure, adapt, and support the sustainable architecture of tomorrow. Because our vision is clear: to leave an increasingly lighter footprint, a legacy of respect and balance between the beauty of what we create and the nature that inspires us.

Escala de destonificación de color

ES

- V1 Aspecto uniforme  
Todas las piezas de la misma partida son similares.
- V2 Variación leve  
Diferencias claramente perceptibles en textura y/o diseño pero con colores similares.
- V3 Variación moderada  
La intensidad del color y/o diseño de cada pieza puede variar significativamente.
- V4 Variación alta  
La diferencias de color y/o diseño es aleatorio entre baldosas, de manera que cada una de ellas puede tener colores completamente diferentes de las demás.

EN

- V1 Uniform appearance  
All pieces of the same game are similar.
- V2 Variation level  
Clearly noticeable differences in texture and/or design but with similar colors.
- V3 Moderate variation  
The intensity of the color and/or design of each piece may vary significantly.
- V4 High Variation  
Differences in color and/or design are random between tiles, so each one of them can have completely different colors from the others.

NOTA: los datos del packing pueden variar debido a los ajustes de optimización del embalaje.  
NOTE: packaging data may vary due to optimization purposes.
