Gravita, desarrollada por Pamesa Grupo Empresarial, es una tecnología superior, modulable y con un espesor de 7,8 mm que convierte la superficie en volumen y la creatividad en una experiencia visual y táctil. Gracias a la combinación de tinta estructurante, cola digital y granilla aspirada, Gravita genera relieves tridimensionales con gran precisión, desde sutiles bajorrelieves hasta altorrelieves, siempre con una continuidad tonal que permite combinar las piezas sin perder armonía. El resultado son superficies continuas que despiertan los sentidos y elevan la calidad perceptiva del producto final. Además de aportar realismo a acabados inspirados en materiales naturales, Gravita ofrece versatilidad, optimización de recursos y procesos más eficientes, con la sostenibilidad como valor esencial.

Más que una herramienta industrial, Gravita es un aliado de la inspiración: un lenguaje al servicio del diseño cerámico que da vida a Moon, la gama de colecciones desarrolladas íntegramente con esta tecnología, llenas de texturas, volúmenes y emoción.

Gravita, developed by Pamesa Grupo Empresarial, is a superior, modular technology with a 7.8 mm thickness that transforms surface into volume and creativity into a visual and tactile experience. Through the combination of structuring ink, digital glue and applied grit, Gravita generates three-dimensional reliefs with great precision — from subtle low-reliefs to pronounced high-reliefs — always with tonal continuity that allows pieces to be combined without losing harmony. The result is continuous surfaces that awaken the senses and enhance the perceptual quality of the final product. In addition to adding realism to finishes inspired by natural materials, Gravita offers versatility, optimized resource use and more efficient processes, with sustainability as an essential value.

More than an industrial tool, Gravita is an ally of inspiration: a language at the service of ceramic design that brings life to Moon, the range of collections developed entirely with this technology, full of textures, volumes and emotion.

MOON

by Gravita

Moon that inspire.
Designs that decorate.
Creations that transcend.

En Ecoceramic, presentamos MOON, una gama de colecciones desarrolladas íntegramente con Gravita, donde la innovación se convierte en un lenguaje común para crear superficies modulares, llenas de luz, matices y expresión.

MOON nace de la observación de la luz y de su relación con la materia: una gama cerámica que explora el equilibrio entre superficie y reflejo, entre volumen y sutileza, dando forma a colecciones modulares entre sí, unidas por una misma sensibilidad estética, una misma visión y una misma inspiración. Se trata de un sistema coherente y versátil, donde cada colección dialoga con las demás, se adapta, se transforma y se combina. La coherencia visual se convierte así en una libertad creativa natural, capaz de ofrecer múltiples posibilidades de diseño.

En MOON, la cerámica se transforma en atmósfera. Las superficies interactúan con la luz, revelando relieves delicados, volúmenes envolventes y texturas que evolucionan según el momento y el punto de vista. Cada colección propone una manera distinta de entender el espacio: más serena, más contemplativa, más emocional.

En el corazón de MOON late Gravita, la tecnología digital que convierte cada superficie en una experiencia sensorial. Relieves tridimensionales, juegos de luz y sombra y superficies ricas en matices definen colecciones que no solo se observan, sino que se viven. MOON by Gravita trasciende lo decorativo para convertirse en una experiencia donde el diseño guía, la luz transforma y la cerámica adquiere una nueva dimensión.

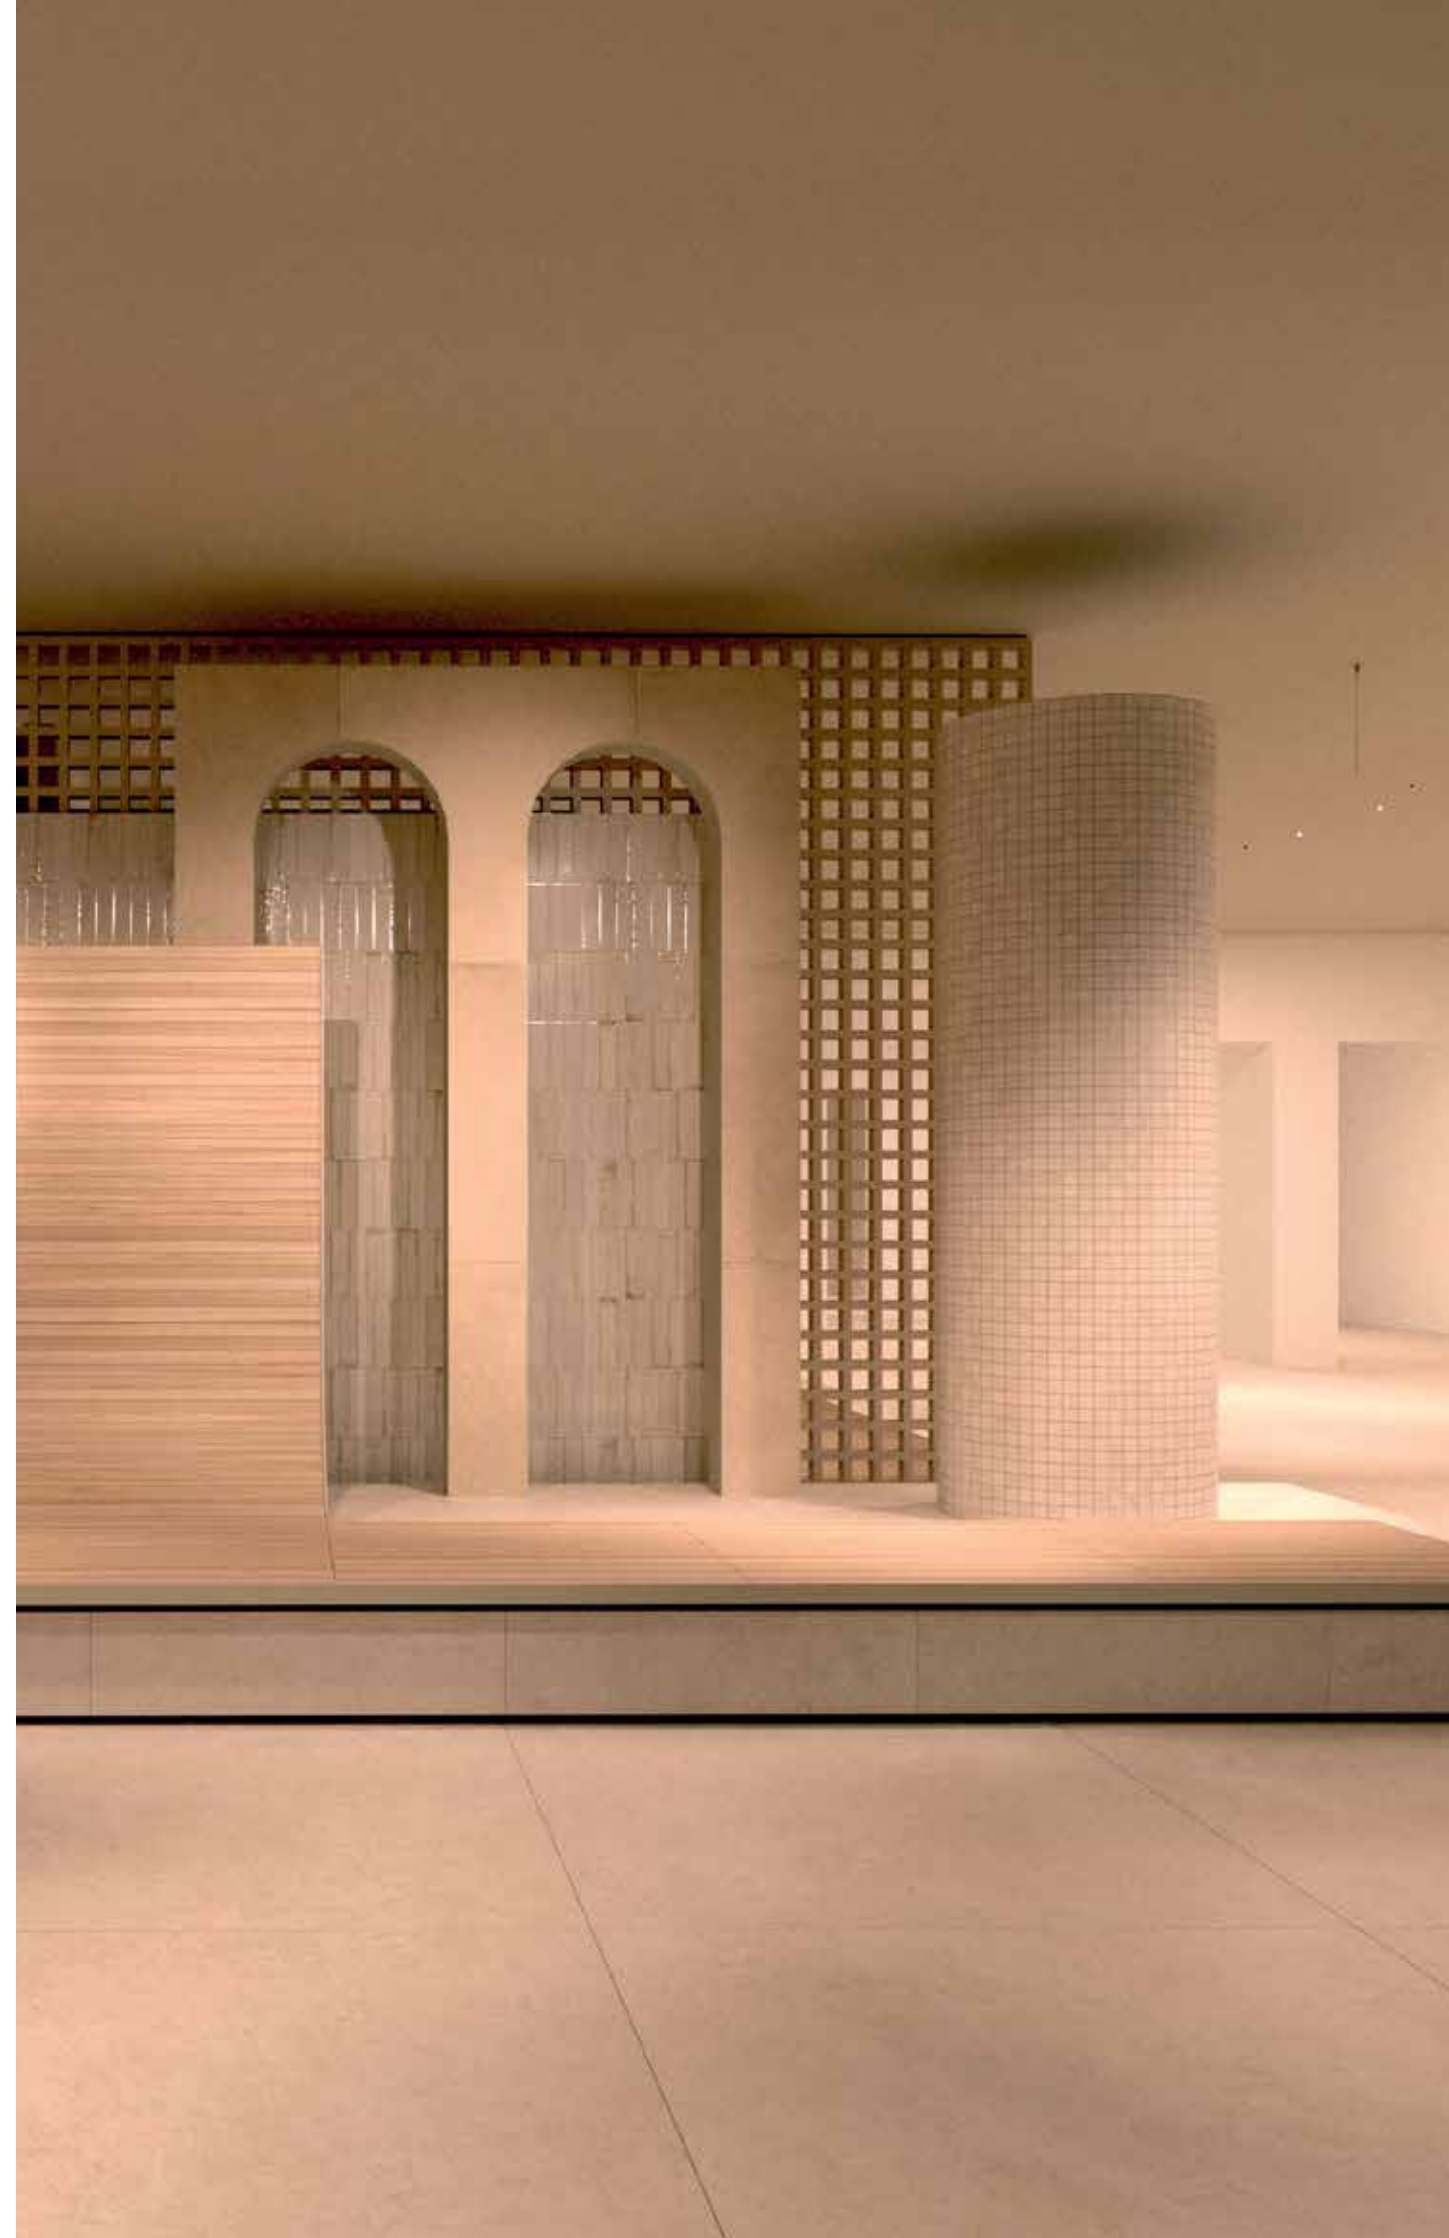

At Ecoceramic, we present MOON, a range of collections developed entirely with Gravita, where innovation becomes a shared language to create modular surfaces filled with light, nuance, and expression.

MOON is born from the observation of light and its relationship with matter: a ceramic range that explores the balance between surface and reflection, between volume and subtlety. Its collections are modular and interconnected, united by the same aesthetic sensitivity, the same vision, and the same source of inspiration. A coherent and versatile system in which each collection dialogues with the others, adapts, transforms, and combines naturally. Visual coherence becomes creative freedom, offering endless design possibilities.

In MOON, ceramics are transformed into atmosphere. Surfaces interact with light, revealing delicate reliefs, enveloping volumes, and textures that evolve depending on the moment and the point of view. Each collection proposes a different way of understanding space: calmer, more contemplative, more emotional.

At the heart of MOON lies Gravita, the digital technology that turns every surface into a sensory experience. Three-dimensional reliefs, plays of light and shadow, and surfaces rich in nuance shape collections that are not only seen, but experienced. MOON by Gravita goes beyond decoration to become an immersive experience, where design leads, light transforms, and ceramics acquire a new dimension.

Alberi es un mármol que no busca imponerse, sino permanecer. Inspirado en el calacatta canela, su fondo cremoso se ve recorrido por vetas anaranjadas, cálidas y orgánicas, que fluyen con naturalidad sobre la superficie.
Una colección pensada para espacios que quieren emocionar desde el detalle y perdurar más allá de las tendencias.

Alberi is a marble that does not seek to stand out, but to endure. Inspired by cinnamon Calacatta, its creamy background is crossed by warm, organic orange veining that flows naturally across the surface.
A collection conceived for spaces that aim to move through detail and remain beyond trends.

Colecciones cerámicas pensadas para acompañar la arquitectura desde el equilibrio y la materia. Superficies inspiradas en piedras, mármoles y cementos, reinterpretadas con una mirada contemporánea y atemporal. Texturas sutiles, relieves precisos y acabados cuidadosamente trabajados se transforman en pavimentos, revestimientos decorativos y soluciones para exteriores y piscinas, dando forma a espacios singulares con carácter y personalidad.

Una cerámica diseñada para convivir con el uso diario, la luz y el paso del tiempo, donde el diseño suma sin imponerse.

Ceramic collections designed to accompany architecture through balance and materiality. Surfaces inspired by stone, marble and cement, reinterpreted with a contemporary and timeless approach. Subtle textures, precise reliefs and carefully crafted finishes become flooring, decorative wall coverings and solutions for outdoor areas and swimming pools, shaping distinctive spaces with character and personality.

Ceramics conceived to live alongside daily use, light and the passage of time, where design enhances the space without imposing itself.

SOUTHWELL CROSS

Southwell ofrece una estética depurada y sofisticada, disponible en dos interpretaciones: Cross y Vein, para quienes buscan superficies uniformes o suavemente veteadas.

La colección incorpora revestimiento en pasta blanca con decorados de relieve sutil, aportando profundidad visual sin romper la continuidad.

Southwell offers a refined and sophisticated aesthetic, available in two interpretations: Cross and Vein, designed for those seeking either uniform surfaces or softly veined textures.

The collection includes white-body wall tiles with subtle relief decorations, adding visual depth while preserving surface continuity.

EcoRespect
EcoInnovation

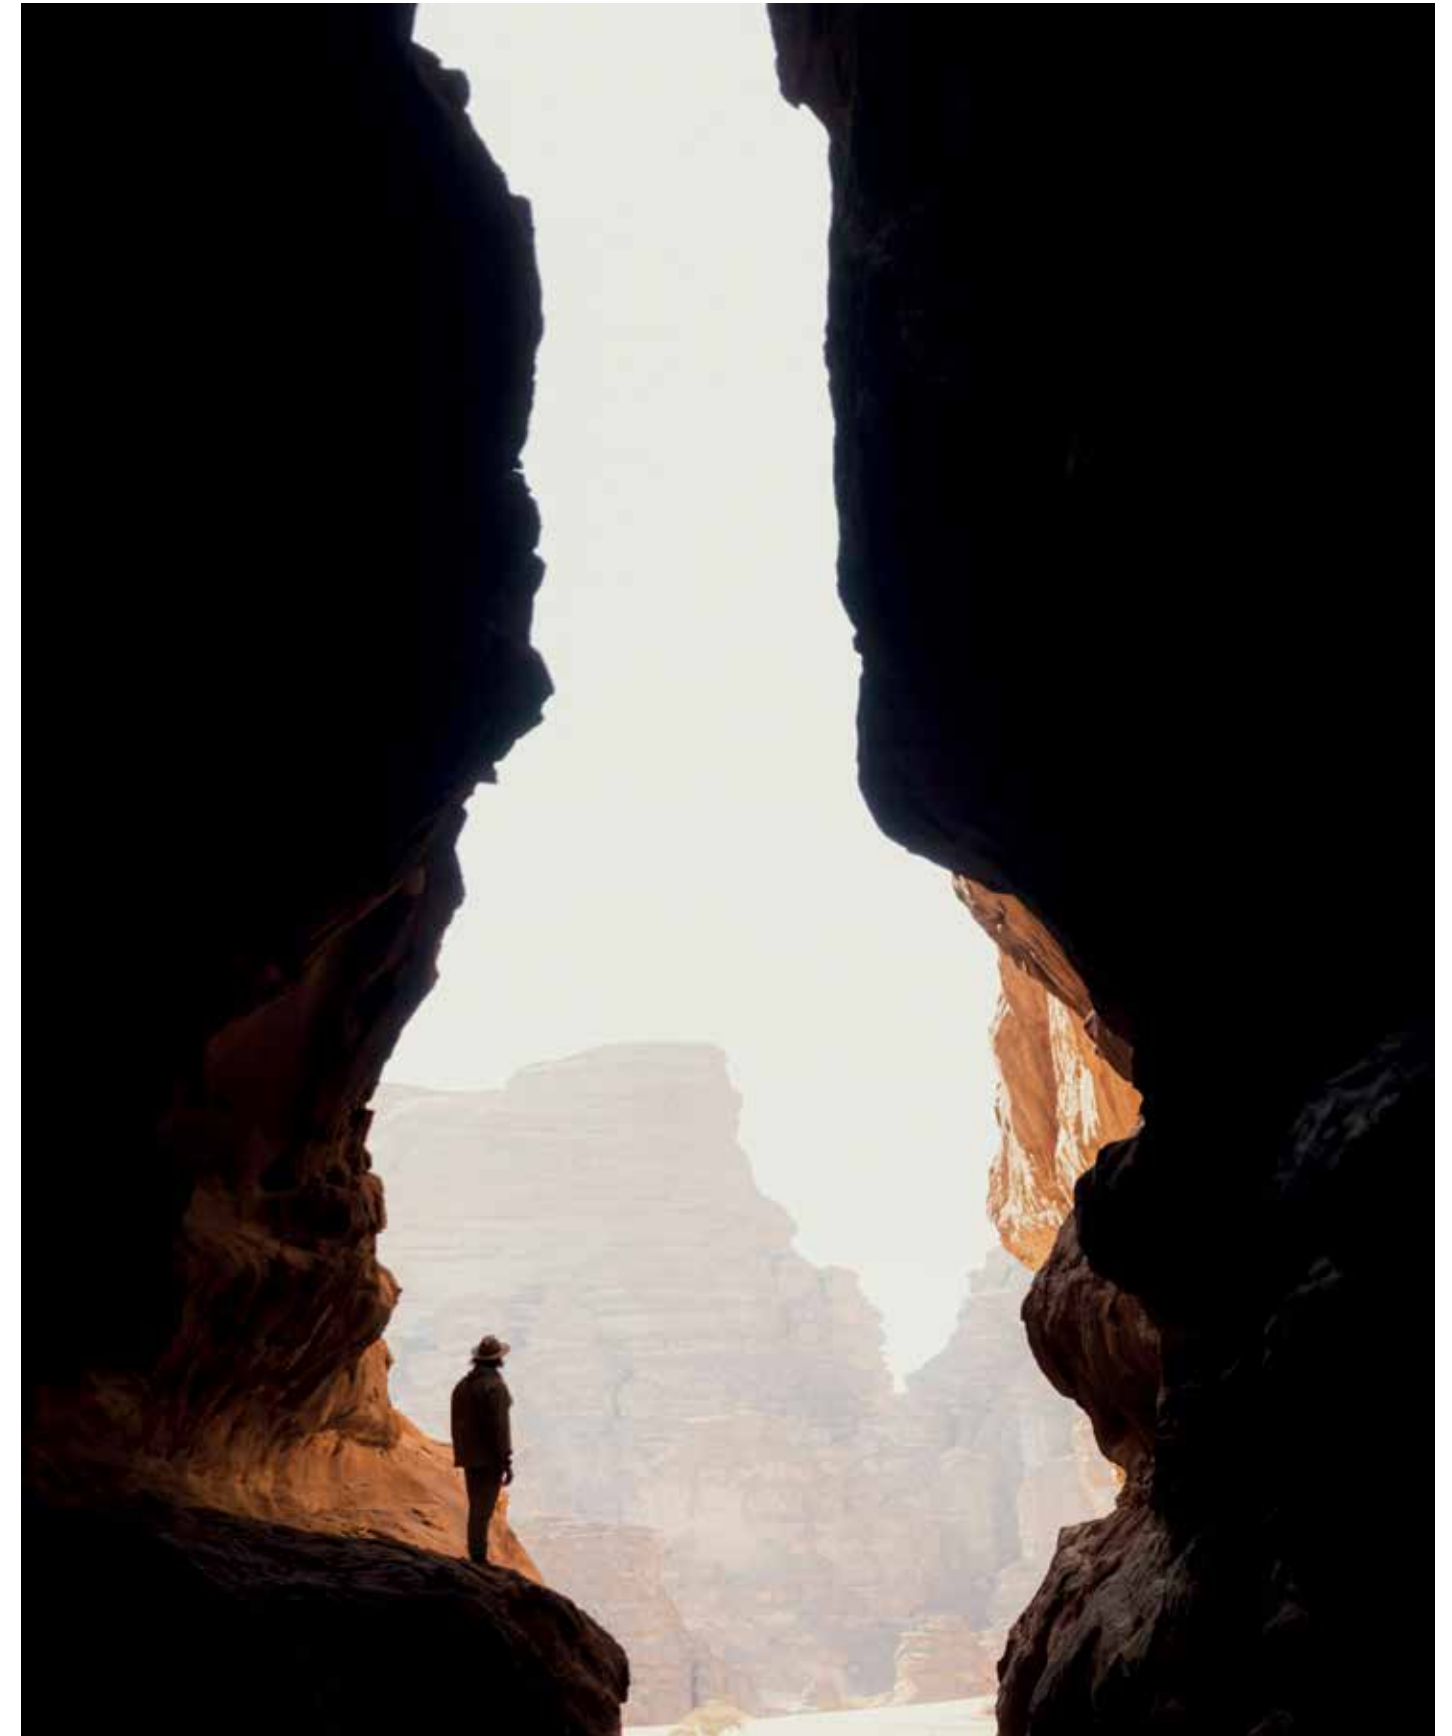

Evolución responsable, inspiración sostenible.

En Ecoceramic creemos que cada creación debe nacer con respeto por la tierra. Desde la elección de las materias primas hasta el último detalle de nuestro proceso, cuidamos cada gesto para reducir nuestra huella y honrar los recursos que nos rodean. Nuestra energía proviene del sol, con miles de paneles que nos permiten transformar la luz en energía limpia para producir sin agotar. Gracias a ello, evitamos que toneladas de CO₂ lleguen al aire que todos compartimos. El agua y los residuos vuelven a tener vida dentro de nuestro ciclo productivo, porque nada debería desperdiciarse cuando se habla de futuro. Priorizamos lo cercano: proveedores locales, materias primas de proximidad y prácticas que impulsan la economía de nuestro entorno. Apostamos por la innovación para avanzar hacia una producción más responsable, explorando nuevas energías como el hidrógeno y reforzando nuestro compromiso con la descarbonización. Cada colección que diseñamos busca perdurar, adaptarse y acompañar la arquitectura sostenible del mañana. Porque nuestra visión es clara: dejar una huella cada vez más ligera, un legado de respeto y equilibrio entre la belleza de lo que creamos y la naturaleza que nos inspira.

Responsible evolution, sustainable inspiration.

At Ecoceramic, we believe that every creation must be born with respect for the earth. From the selection of raw materials to the final detail of our process, we carefully manage every step to reduce our footprint and honor the resources around us. Our energy comes from the sun, with thousands of panels that allow us to transform light into clean power to produce without depletion. Thanks to this, we prevent tons of CO₂ from entering the air we all share. Water and waste are given new life within our production cycle, because nothing should be wasted when it comes to the future. We prioritize proximity: local suppliers, nearby raw materials, and practices that boost the economy of our community. We bet on innovation to advance towards more responsible production, exploring new energies like hydrogen and strengthening our commitment to decarbonization. Every collection we design aims to endure, adapt, and support the sustainable architecture of tomorrow. Because our vision is clear: to leave an increasingly lighter footprint, a legacy of respect and balance between the beauty of what we create and the nature that inspires us.
